

CLIMATE CHANGE

WHAT CAN WE DO IN DRAUGHTON?

Around the world, fires, flooding events, melting sea ice and the extinction of wild creatures are everyday news stories, yet it's far from clear to see what, if anything, is being done about it all. What on earth is going on?

Feeling confused? Concerned?

ARE YOU WONDERING WHAT WE CAN DO OURSELVES?

Well, quite a lot, actually —even here, in our small village,
we can do our bit!

Come along to hear more about what we can do with our own community climate project, Draughton Action to Zero and find out how we can all come together in the village to respond to the climate change challenges:

Together, we can be a net zero energy community!

Village Event 28 September
7-9pm in the Hall
Draughton Village Hall

Early Doors

Bar opens

6pm!

**Climate
Quiz!**

For further information contact Jane Markham, Clerk to the Parish Council

parishclerk@draughton.org
